Fred Smith, Marion Morrill, Margorie Smith, Mr. and Mrs. J. C. Warren and son, Harold Sibyl Barber, Bernadine Sargent, Clarence Smith and daughter, Angie, took an auto to the Flume Sunday.

A Perfect Swimming Pool (Barton Monitor)

Montpelier, St. Johnsbury and other Vermont places are agitating the building of swimming pools at an expense of many thousands of dollars, while Barton has natural facilities in Crystal lake beach which are unsurpassed by any place in northern Vermont. Here is a perfect white sand, crescent beach with a public bath house and street, with parking room for cars, leading to the very water's edge. More and more automobile parties from many miles are taking advantage of this beach, while the townspeople are patronizing the place more often than ever before. It is an asset to the town which few fully appreciate, and one which should be more generally boomed.

DR. O. S. DAVIS

ADDRESSES THE WOMAN'S CLUB

The August meeting of the Woman's Club was held in Pythian Hall, Monday afternoon and was one of the largest attended of the year, many guests and quite a few mentioned being in attendance.

At the business session the president, Mrs. Robert E. French, announced that there would be a club picnic at Joe's Pond sometime in September and urged all to make plans to attend. One new member was elected to membership, Mrs. G. F. Giffin, and there were several appropriations passed. A report of the work of the district nurse was given by Miss Kate E. Wakefield. Before the address of the afternoon two solos were excellently rendered by Miss Ruth Ellet with Mrs. Eugene Scott, Stuart, accompanist.

Miss Mary E. Ide, chairman of the education committee, welcomed Rev. Dr. Ozora S. Davis to St. Johnsbury and the Woman's Club, and he prefaced his address with an appreciation of the pleasure in returning to St. Johnsbury, jokingly saying they were receiving the salutation of a young man in ancient form.

His address upon the theme "Building the New World" was full of inspiring and helpful thoughts, scintillated with keen flashes of wit and replete with illustrations from classic works. He spoke in part as follows:

"No man can look at the world today without being solemnized and smitten with humility at a situation so complex, so intricate and so vast. I feel the present world situation to the depths of my being. I feel that anyone who dares to be flippant or indifferent is unworthy to live. We must think this problem through. I accept the new world, given as it is, as the gift of the young manhood of the world."

"Let us take a brief survey for the background of our theme in our unhappy bewilderment. To realize the economic condition you have but to read the first page of the Boston morning paper. You will need nothing more from me to understand the economic upheaval. Labor must have a larger share in the direction of production and exchange and a larger share in the profits. Did you read the report of a group of English manufacturers who said 'We are resolved that we will not run our business as an intake of private interests, but an output of public welfare.'"

In seeking after a solution of our problem Bolshevism, which is class legislation run mad, has no word of prophecy. Neither has conservative capitalism, which says we will do what we please and hire 'hands.' And we must also take into consideration the third party which has never been considered before, the consumer.

"There has been a great upheaval in ethics. You have only to look at the home to realize this. Here we once stood on the basis of the ethics of Jesus. That which God hath joined together, let no man put asunder. Has marriage become merely a contract of convenience? This is a time of shattering, unrest and change of our moral standards."

"There are sure signs of shifting and change in the political order. What, for instance, has happened to our railroads? After literally working my passage through New England from Lake Sunapee to Lake George, back to Lake Sunapee and then to St. Johnsbury, from now on I regard a Ford as a benediction. The people are controlling the railroads and the very men who ought to preserve the morals of the system sit back and flippantly say, 'It's up to Uncle Sam.'"

"There has been an overturn in our religious ideals. There is the peril of slipping back to mere ecclesiasticism. Perhaps, even, some of the credal foundations are shaking."

"In this reconstruction of our economic, ethical, political and religious ideals what are some of the materials with which to work out our salvation. In the first place we rejoice at the radical temper of the time. We are coming back to the old challenge of our constitutional and revolutionary period when men demanded that reason should plow not the surface, but the depths of the field."

"Another great principle is the paradox that at the very time when we were sacrificing life with great prodigality we were discovering the value of the ordinary man—the ultimate imperishable value of the individual. Beneath the surface we must see the worth of the soul. This will lead us to a new construction of industry. We shall think of the workman no longer as a 'hand,' but as a soul. The worth of the soul is being revealed and we can never build the new world on the idea that humanity is cheap and cursed."

"The third great principle is a new sense of community interests and values. There must be neighborliness and a grasping of the fact that the community is a super-person. We know at last that the community without the individual is nothing. We have talked much about the self-determination of the small nations, but what about the self-determination of a local community? Must we always have outside guidance?"

"There must also be a newly awak-

PRINCE ALBERT

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pipe with your smokethrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so

appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!

You buy Prince Albert everywhere tobacco is sold. Tasty red bags, tidy red tins, handsome round and half pound tin humidors and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.
